Project Information

Date: _____ Response Required By: _____

Project Name: _____

Project Location: _____

Permitting/Reviewing Agency Standards: _____ Project Description/ Land Use: _____

Treatment Requirements - Target Pollutants

- TSS Oil & Grease Other:
 Trash/Floatables Metals: None

Storage Requirements

- Detention None
 Retention/Infiltration Other:

Treatment Technology (if known)

- Filtration Hydrodynamic Separation Screening
 Oil/Water Separation Volumetric Separation Catch Basin Insert
 High-Flow Bypass

Storage Type (if known)

- Metal Concrete
 Plastic Volume Required:
 Allowable Depth:

Design Specifications

Structure ID	Contributing Drainage Area			Water Quality Design Flow or Volume	Peak Condition		Inlet size/ Outlet Size	Elevations (ft or m)		
	Area (ac or ha)	Runoff C or % Impervious	T _c (min)		Flow (cfs or l/s)	Return Period		Rim	Inlet Invert	Outlet Invert
		C or %		/			/			
		C or %		/			/			
		C or %		/			/			

Inlet Material:

Outlet Material:

If high seasonal groundwater, what is the elevation? _____

Other Design Requirements
